Teague Update

Issue 45

September 2012

Shipment to the Field

We praise the Lord for all that He is doing for the work in Ivory Coast. We received a major donation of medical equipment for the Esther Hospital in Grand Bassam, 12 tabernacle kits, equipment for a tabernacle fabrication center and donated clothes and household items for the victims of the war. The two containers arrived in port and have been blocked because customs is requiring \$22,000 to clear them. This past week God provided a financial miracle through the generous offerings of an individual and two churches. The containers should be out of the port by early next week.

Amber's School Floods

After only a week of school at Sahel Academy, Amber had to be evacuated with the other dorm kids because of record rains and flooding. The school will be unusable this year. Amber came home to Abidjan for three weeks while the administration of Sahel Academy rented buildings in other parts of the city. Amber is back at school now, but it will be a different experience without a campus.

I

Prayer Requests:

For safety as we travel for ministry. There are problems with armed bandits.
For health. We are in need of physical strength.
For the evangelistic campaigns that we are scheduled to hold from now to December.
For the children's' worker training that Shelley will be holding at Assouinde and Agboville.
For Amber and the adjustments at her school after the flood.
For Ashley that she will have a good semester at Southwestern AG University.
